

RAYMOND

The site of the One Million Dollar Factory of the Canadian Sugar Factor-ies, Ltd. In the center of the best-raising district of Southern Alberta.

Raymond Recorder

A live town in a rich agri-cultural and stock-raising district. A good place to make your home.

Volume 32

THURSDAY, JUNE 15th, 1933.

Number 15.

Raymond Pupils Do Well In Recital

The following comments on the Recital in Lethbridge are from Miss Lovering, the Teacher, and we repeat them without change or alteration. Ed.

A most successful and enjoyable recital was given in Lethbridge at the Marquis Hotel June 9th, by the music pupils of Miss M. Lovering, A.T.C.M. A number of parents and friends were present from Raymond.

Little Darlene Douglas displayed remarkable talent and proved to be a very popular young lady with the audience. LaMont Palmer played with excellent tone and memory. Mildred, Hazel and Margaret McBridge each played well giving evidence of much practise and musical ability. Steel Brewerton rendered "Narcissus" with a good clear tone and good rhythm. A duet by Shirley Taylor and Lillian Roberts was much enjoyed, the girls playing well together each giving evidence of their own talents. Dolayne Price played "Swinging Merry" with an appropriate rhythm and tone. Louise Burnett rendered "Harvest Home" in a joyful mood. June May played with excellent memory and correctness. Carl Allred and Duane Widgeall gave Chopin waltzes displaying musical feeling and good expression. Agnes Roberts played in a very pleasing manner with excellent memory. Alice Snow presented a very difficult selection in an interesting manner with good tone colouring. Duane Widgeall and Willis Taylor brought the programme to a conclusion by playing the National Anthem in an appropriate and serious manner.

Much credit is due the Raymond pupils who worked so diligently and well to render their numbers on the programme.

Crop Conditions

Raymond and district needs rain. Nothing is burning, and the sub-soil moisture is quite plentiful, but crops which are not well rooted, are making little if any headway, and in the course of a very few days will start to burn, if rain does not come.

The pastures have lost the healthy green color they had a few weeks ago, and in places are commencing to look brown and seared, as they should look in late July or August.

The condition is not hopeless but rain is needed. Beets are looking good and beet growers are busy with the water irrigating the fields. Thinning is getting well along, and to date, the web worm menace has not been very great. There is still danger from this, as reports state that there are many moths flying about, and all that is needed is a suitable place for the eggs to hatch and we will have cut-worms.

Grasshoppers are hatching fast, but farmers are watching pretty closely and are spreading bait as fast as they can, so that this menace will likely be kept within control, although it will be serious, enough at best.

Mrs. Jas. E. Fisher is visiting with relatives and friends in Utah at the present time.

D. H. Grow, well known to many Raymond people, was instantly killed Saturday last near Idaho Falls, Ida, when in a collision between his car and a truck load of wool, the truck fell on top of the Grow car, killing Mr. Grow at the wheel. Mrs. Grow and a daughter Catharine, escaped with a shaking up and a severe shock.

Genealogical Convention

The Tri-Stake Genealogical Convention will be held in Raymond, July 8th and 9th in the Stake House. A program has been arranged to occupy both days, and a grand concert, featuring talent from the three Stakes will be held Saturday night.

Visitors will be present from Salt Lake City representing the Genealogical Association of the Church, but to date the names of these visitors have not been announced.

Make arrangements to attend the Convention and watch these columns for further details as they are announced.

DUMB DINNER

Sixteen girl friends of Edyth McMullin gathered at her home and prepared a delicious dinner in silence, the penalty for speaking was having to do the dishes. The table was beautifully decorated with rose buds and tulips. The guests present were: Marie O'Brien, Beth Hloken, Iona McMullin, Cleo Zemp, Wyora Scoville, Leon Nilson, Doris McMullin, Jean Wall, Agnes Terry, Edna Zemp, Helen Scoville, Lucille Depow, Florelle Palmer, Agnes Terry, Olive Nilson, and Eva Hawk.

News Notes

Let the Kids See "Con-gorilla."

Melvin had rather a pained expression on his face after he sat on a tack someone had carelessly dropped on his desk.

Wednesday had everyone hunting the cool places and wishing for a little rain to cool off the atmosphere some.

Monday and Tuesday at the Capitol, Lionel Barrymore in his latest picture, "SWEEPINGS."

J. H. Blackmore will be going to Edmonton again at the close of the present school term to mark examination papers.

Starting today the Greyhound is making the trip from Lethbridge through to Waterton Park. It will arrive here about the same time in the afternoon, but will be nearly two hours later getting here from Cardston in the morning, arriving at 10:43.

Teddy Allen was honored on his birthday, Friday, June 9th, when his mother, Mrs. Thos. Allen, gave a party for him, when he had 12 of his friends there for a pleasant afternoon of games and refreshments.

Two traffic cops were busy in Raymond and district last Friday night and overhauled a number of motorists regarding tail lights, drivers licenses, reflectors and so on. A number of offenders were taken in and warned, and on Saturday, the garages were busy repairing tail lights and putting horns in order.

Mr. Williams, the Sanitary Inspector of the Government was in town on Friday last, inspecting condition up and down the street. A number of recommendations were made with time limits set for their completion. This work is in the interest of public health.

News Notes

F. R. Taylor and J. W. Evans Sugar Factory Fieldmen, were in Magrath on Wednesday last.

There was a few hours Saturday afternoon when the wind didn't blow, about the only day light hours during the week just passed.

D. C. Peterson, former Editor of the Recorder is visiting with friends and relatives here at present. "Pete" has been confined to the Hospital for awhile recently but is feeling and looking pretty well again now.

Miss Ruth Kimball, after about a week at home, following her appendicitis operation, returned to her school work at the Bon Air School on Monday.

The mixed train of the C.P.R., between Edmonton and Calgary, ran over three men, believed to be transients, who were apparently resting on the track, and had gone to sleep, and killed them all. Identification was being sought, but nothing definite was found over the week-end.

The middle and eastern states were sweltering in heat of 100 degrees in the shade over the week-end, in a spell that had killed more than 125 people, some directly due to the heat, and others causes related thereto. Scattered showers were easing the situation somewhat.

Lionel Barrymore, Capitol. Monday in "Sweepings."

The damage suit between Kitchener Elton and the Sugar City Municipality was heard before Justice Simmons Monday and Tuesday of this week, the judge reserved his decision. The case required the presence of a number of local citizens, as well as the members of the Municipal Council as witnesses.

Don't miss the Double Feature Program Tonight and all week at the Capitol.

Magistrate Low of Cardston and Cons. Ellis of Magrath, were here on Tuesday on official business.

"Congorilla" and "Why Strangers Marry." Two Features Tonight.

Elders Weldon Bascom and Gerald Gibb were the speakers in the Raymond Second Ward Sunday evening. These two men have just returned from the mission field and there was a good crowd present to hear their talks which were very interesting and faith promoting.

J. D. Hall and T. O. King spent a couple of days last week in Lethbridge on an arbitration case between J. D. and the Provincial Government over road right of way in the Conrad district. The arbitration was successful and both parties were satisfied.

Dance Pavillion Is Now Under Way

Baseball Chatter

Under way at last, after considerable "spring training," the Town baseball league is creating keen rivalry. Four teams have been selected, viz: Rustlers, captained by Russel Neilson; Brownies, captained by Cliff Nalder, Capitols, piloted by Ross Humphries, Pats, led by Dick O'Brien.

The first clash came between the Rustlers and Brownies, the latter capturing the slugfest by a 12-11 score. Defeating the Capitols by an 8-4 score, Dick pitched his Pats to victory, tying the Brownies for momentary league leadership.

Backed by well-nigh perfect support Russ Neilson of the Rustlers curve-balled the Pats into submission, final score read in Pats 0, Rustlers 6. The Capitols dropped their second game when they ran square into the artillery guns of the Brownies. Gordon Rutten won his second game by allowing only four runs. The Brownies gained ten.

Last Wednesday night featured the Capitol-Rustler clash, the former winning their first game of the year. They scored five runs the first inning, final score 6-3. Joe Strong smacked a three bagger and Gray Kirkham a home run for the losers.

In last Friday's game the Brownies scored a win over the Pats making it 3 straight for the hard hitting Brownies final score was 8-5.

Rayo Woolf has promised to get some boxing gloves for the players to use in case some of the arguments become to heated.

Come and see them—Lots of fun.

Tuesday's game between the Capitols and Pats resulted in a 7-4 victory for the Capitols. 3 base hits were rung up by Van-Orman and Brewerton of the Capitols.

SEEN BY RABID FANS.

Ross Humphries demanding a rule book before continuing the game.

Dick O'Brien pleading for the umpire to give him the "corners."

Walt Webster making a beautiful running catch of Reed Kirkham's fly.

Sam Fairbanks wondering why it is easier to make a set-up than to hit a curve ball.

Gray Kirkham pulling the Houdini slight-of-hand-trick on Vern Henry.

At present the teams are as follows in standing:—

BROWNIES Won 4 Lost 0
CAPITOLS Won 2 Lost 2
RUSTLERS Won 1 Lost 3
PATS Won 1 Lost 3

June 16—Brownies and Caps.
June 19 Rustlers and Caps.
June 20—Brownies and Pats.
June 21—Rustlers & Brownies.
June 23—Pats and Capitols.
June 26—Rustlers and Pats.
June 27—Brownies and Caps.
June 28—Rustlers and Caps.
June 30—Brownies and Pats.

Keep this schedule for reference. Come and see the games, and watch this column for the latest dope on the progress and standing of the teams.

Culminating a great deal of planning, and some delay, because of the busy season, the Open Air Dancing Pavillion of the Raymond Second Ward is now under way, and will be pushed to completion as fast as possible, under the circumstances.

Plans call for a floor 60x100 feet of cement construction with a varnished surface, which according to those who know, make the best dance floor possible, being far superior to lumber floors, especially those that have to weather the storms of winter.

The floor will be laid on an eighteen inch thickness of cinders to ensure drainage and this is expected to take care of any troubles that may otherwise arise from frost and contraction and expansion. Gravel will be put over the cinders and then the cement run on top of the gravel.

It is hoped to have the Open ing sometime before Dominion Day if possible.

Raymond Couple Wed In Lethbridge

St. Augustin's church in Lethbridge, was the scene of a quiet wedding at 1 p.m. on Thursday, when Herma, second daughter of Mr. and Mrs. L. L. Pack, became the bride of Mr. Edward L. Hodson. The bride was attended by her sister, Lenore, Mr. and Mrs. Pack acted as witnesses. The bride was charmingly attired in a blue crepe travelling dress with white accessories. The happy couple left immediately on a honeymoon trip to Banff, Edmonton, and Calgary. They will return to Raymond about June 23 for a week and after July 1st will be at home in Vegreville, where Mr. Hodson is assistant manager of the Bank of Montreal.

Tuesday afternoon Mrs. L. L. Pack Misses Lenore and Elaine Pack entertained in honor of the bride. The guests included, Mesdames J. Powelson, Dave Powelson, Arthur Dahl, Mattia Kinsey, W. Rouse, S. Kinsey, R. Dahl, P. Dahl, Rulon Dahl, C. Dahl, F. Dahl, Ross Salmon Bill Fairbanks, M. T. King, O. King, Vern Peterson and M. W. Peterson. A delicious lunch was served and the bride presented with many beautiful gifts—Lethbridge Herald.

News Notes

J. H. Reid was in Raymond for a little while Friday morning last on business.

Mr. and Mrs. Kenneth Stone who went to the June Convention in Salt Lake City with Elgin Peterson and party of Stirling, are expected home the early part of next week.

Mr. and Mrs. Arthur Dahl were in Cardston last Friday at the Temple when Alberta Stake Day was held when 596 endowments were officiated for.

Wm. Paris is in receipt of a letter from his son Douglas, who is at Onaway, in the Edmonton district, stating plenty of rain was falling there, and everything looks nice and fresh and green. We would like a little of that rain down here.

Mr. Fansett, Sr. father of "It J." was badly shaken up and injured somewhat in a car accident last week, but is improving nicely, and is expected home from the Hospital this week.

ALBERTA NEWS BULLETIN

Issued by the Publicity Commission, Government Buildings, Edmonton, June 10

COAL PRODUCTION

The total coal production for the province for the month of April was 245,757 tons, a decrease of 7,875 tons from the same month of 1932.

NEW COAL RATE

A new effort to gain the Ontario coal market for Alberta coal mines will be made following the announcement of the Canadian Railway Commission that an order is to be issued giving a \$5.50 per ton freight rate on the coal from Alberta points to the East.

RAILWAYS PAY

ALBERTA BIG SUM

Canada's two transcontinental railways paid the Government of Alberta the sum of \$5,423,000 at the first of June, as second cash payment on the purchase of the northern railways, formerly owned by the provincial government, but sold to the C. P. R. and C. N. R. for a sum exceeding \$26,000,000. The northern roads are operated jointly by the two railways.

INTERESTING DEVELOPMENT IN TURNER VALLEY OIL FIELD

Efforts to recover additional naptha from the gas going to waste in Turner Valley Oil fields in Alberta, have been successful. A new absorption plant installed by the Royalite Co., largest operators in the field, is now recovering naptha from the waste gas at a rate which will mean more than 124,000 barrels added annually to the regular naptha production of the field. The daily additional recovery made possible by this plant is expected to average 342 barrels. The total annual value of the additional naptha thus recovered in gross revenue is estimated at over \$371,000.

The conservation measures put into effect by the provincial government to control wastage of gas as far as possible, are now in effect, limiting the daily production of gas of each well to 40 per cent. of the assumed open flow of the well. By successful experiments of some operators in increasing the naptha production from the gas by holding greater back pressures, the quantity of gas required for production of each barrel of naptha has been greatly reduced, and now average for the whole field a few points above 100,000 cubic feet of gas per barrel of naptha recovered. This is far below the ration existing a year or so ago.

OIL PRODUCTION

Production of oil in Alberta for April has just been announced by the petroleum division of the lands and mines department as 74,615 barrels, of which 69,447 was naptha from Turner Valley.

CONTROLLING MOTOR BOAT TRAFFIC

Special regulations controlling motor boats on lake resorts in Alberta have just been made effective by the Alberta government. These require all motor boats to be licensed, to have mufflers set in recognized places, to have proper lights, and they make provision also against the reckless or negligent operation of motor boats, and against speeding save in racing.

ALBERTA'S WRIGLEY SWIM

The Wrigley Swim for the province of Alberta will take place this summer, July 22nd, at Sylvan Lake, one of the largest lake resorts in Alberta, just west of Red Deer city, on a gravelled highway. In conjunction with this event, a large regatta will be held.

Mr. Olsen, father of T. Olsen returned to his home in Mount Pleasant, Utah, on Friday last to take advantage of the excursion rates in effect.

TIDE OF COMMERCIAL AND INDUSTRIAL PROSPERITY FOR CANADA IS SEEN AS SALES, PRICES, TRANSACTIONS UP

OTTAWA, June 10—Continued rise in commodity prices; the increasing volume of sales in retail stores; increased exports of two important commodities, wheat and wheat flour; and increasing price levels and volume of transactions on the Canadian stock exchange will indicate the possible incoming of a tide of commercial and industrial prosperity in Canada. This is the opinion expressed in statistical review issued by the department of trade and commerce.

Early exports reports for the month of May show shipments of wheat and wheat flour were higher by \$3,500,000 than in May, 1932. In volume, exports of wheat were practically 6,000,000 bushels higher and exports of wheat flour 100,000 barrels greater. Export clearance of wheat from August 1 to the beginning of June amounted to 197,824,036 bushels, an increase of 57,000,000 bushels over the corresponding period of the preceding crop year.

For the ninth consecutive week both the value and total of transactions on the Canadian stock and mining exchanges have been on the upgrade. In the industrial field, returns show signs that stocks are depleted and that production is on the uptrend.—Lethbridge Herald.

A FEW TYPOGRAPHICAL ERRORS IN PAPERS

Queer things sometimes get into print because human beings all make mistakes, says an exchange. Now and then a news paper reporter rites copy carelessly. Here are a few of the "best bets" in such errors:

Touches live wife, man hurt—ed 35 feet.

Wanted—Saleslady. Must be respectable until after Christmas.

Experienced sales people wanted. Male or female. No others need apply.

The evening was spent in an infernal way, a radio program being the main diversion. Send mother a gift of hardly everblooming rose bushes.

For fifty-five years, Dr. Jaucky practised medicine, being responsible for most of the babies born in the community.

Wallace was defining different objects and when he came to a cocoanut he paused awhile then as an inspiration hit him, he said: "A cocoanut is a potato with hair on."

Doug startled everybody by leaping from his seat and dashing downstairs. He came back grinning and wiping his mouth for he had just gone for a drink.

What Might Happen If Advertisers Became Truthful

You may cure your halitosis but it won't do you a bit of good. Gargle all you please with our mouthwash—the fact still remains that your face is one that God forgot, and if you think romance will ever come your way, you're very much mistaken.

Besides, our product is nothing but water and flavoring matter, and as for our correspondence courses—

You'll never amount to much. Success comes only to one man in a thousand. Millions study and slave but they never get anywhere.

Of course, if you want to try that's your business—we'd rather have your money than see it go to a bootlegger; as for department stores—

Parisian styles imported from Jersey. They're really rather fine dresses. But, my dear girl we can't make you over. No garment can turn a clothes rack into a Greta Garbo.

Look at yourself in the mirror!

What can you expect?—Main wright Star.

Roses were sold in town on
Saturday in aid of St. Michael's
Hospital, Lethbridge. The sale
was fairly good.

Don't forget the musical
program, Friday night at the
Second Ward Party. Be sure
and come out.

Joe Elder has an oil truck all
painted up yellow and black to
match the colors of his garage
and service station.

Irrigating of lawns and gar-
dens has been necessary the past
week to keep them from burning
in the hot weather.

Inspector Carruthers of the
Calgary force was murdered early
Tuesday morning when he
sought a burglar in the west
end of the city. The police both
city and R.C.M.P. were conduct-
ing a vigorous search and at
six a.m. Tuesday had three sus-
pects held for questioning.

Peter Pommerul, Postmaster
at Redberry, Sask., was shot in
the back of the head Monday
afternoon in his store by an un-
known assailant. Police doubt
if he even knew what hit him.
An empty .22 calibre shell was
the only clue left by the mur-
derer, and one of two purses
habitually carried by the dead
man were missing.

CANCER

Cancer now stands in mortal-
ity statistics in the United
States. Every boy and girl who
reaches the age of 10 years has
one chance in 10 of dying from
cancer.

These statistics, taken alone,
are startling. They at once sug-
gest a wide spread of this dread
disease. But there is one factor
in the situation that is frequent-
ly overlooked and which conse-
quently leads to considerable
misunderstanding and needless
anxiety. That is, the fact that
as recently as 20 years ago mor-
tality among the young was con-
siderably higher than it is today.

Great advances have been
made in eliminating the cause of
early death. Antitoxin has re-
moved the ravages of diphtheria,
pure water and pasteurized milk
have cut down the deaths from
typhoid, there is a better under-
standing of infant feeding. Deaths
from appendicitis, once so com-
mon, are now comparatively rare.
Other instances might be cited to show the
marked progress of preventive
medicine that has shifted the
high mortality rate from the
lower to the upper age brack-
ets.

There was less cancer 20 or
30 years ago because fewer per-
sons survived the ailments and
diseases of youth and middle age
to reach the age when man is
most susceptible to the degener-
ative diseases, of which cancer
is one.

INDEFATIGABLE

The public wants news, and
must have it, in the form of
articles and descriptions and pic-
tures. The greatest organization
in the world—the press—is con-
stantly bent upon the public ser-
vice, and tropical heat or polar
ice is all in the day's work.

Fortitude in the line of duty
is as well preserved in the race
of newspaper photographers as
it is in the reportorial group,
which has given many exam-
ples of courage and intelligence
and hardihood in the pursuit
of a story.

"King, look this way."
It was a newspaper photog-
rapher who said that, or some-
thing like that, when a royal
personage wasn't taking exact-
ly the right pose as he landed
in the United States. Perhaps
it was a queen to whom he ad-
dressed the command. Queen
or King, it would have made
no difference.

Newspaper reporters and
photographers are constantly
taking risks that their readers
may have the news in word
and picture. If they are infor-
mal and abrupt, they are also
indefatigable and brave. Cour-
age is equally divided among
the members of the fraternity.

J. D. Hall is around again,
after having been sick in bed
for about ten days.

BORN WITH TEETH

Every baby is born with
teeth. Occasionally, at birth, one
or more can be seen, but usual-
ly they are still hidden from
sight in the gums where they
have been forming for several
months before birth.

The kind of teeth which the
baby will have depends chiefly
upon the foods eaten by his
mother during her pregnancy
and, after the baby is born,
while she is still nursing him.
To build strong healthy teeth,
mineral salts, especially salts of
calcium (lime), are required. Vi-
tamins are also needed to ensure
proper dental development. That
is one reason why expectant and
nursing mothers should use milk
and milk products, eggs, vege-
tables, especially the leafy ones,
and fruits.

The teeth with which the
child is born gradually appear,
and by the end of the first year,
the baby has cut six or eight
teeth, and twice that number by
the end of the second year.
Teething may be painful and
may cause the baby to be cross
and restless, but teething does
not cause illness. A common
mistake that is made is to blame
every baby illness on teething,
with the result that not
infrequently there is serious de-
lay in securing proper care for
the sick child.

To ensure healthy, even and

strong second or permanent
teeth, it is necessary to take
good care of the first teeth, even
though they are but temporary
ones. The first teeth are needed
to allow the child to chew his
food, and in this way, develop
his jaws and nourish his body.
He must eat plenty of tooth-
building foods if the permanent
teeth are to be well built, and
his jaws must be developed in
order to allow room for the sec-
ond teeth.

The first teeth also serve as
guides for the second set, keep-
ing proper spaces for them. Ne-
glect which leads to decay and
premature loss of the first teeth
frequently prevents the second
teeth from coming through into
their proper position.

Before his teeth come, the
baby's mouth does not require
cleansing. The teeth should be
cleansed with a soft brush after
each meal. After the second year
signs of decay should be looked
for, and after his third birth-
day, the child should begin his
regular visits to the dentist
to receive any preventive treat-
ment that may be required.

Baby teeth may become ab-
scessed, and the abscess may
form what is known as a gum-
boil. Gum-boils should never be
neglected as sometimes ab-
scessed teeth give rise to serious
trouble.

Parents who care for their
baby's teeth and who provide
their growing child with plenty
of tooth-building foods are en-
suring for their child the great
advantage of strong, healthy
teeth.

Lynn Fawn returned on Sun-
day from a visit with relatives
and friends in Utah.
